Spring 2024
VOL. 31/ISSUE 1

*Welcome,
Spring!*

INSIDE:

**New Sales • Recent Deliveries • Employee News • GREASE GRITS Service Article
Awards and Milestones • 2024 Expos**

Letter from the President

*“To plant a garden is to believe in tomorrow.”
~ Audrey Hepburn*

As I write this column, it's dreary and rainy outside which makes the anticipation for Spring that much better! I'd have to say the Spring season is one of my favorites because of finally having daylight and sun in the evenings!

A quick shout out to my sister Jodi who conquered the last newsletter column in style! If you didn't have a chance to read her business update and the show of gratitude to you all, you can find it here: www.glickfire.com/news/glick-at-a-glance-winter-2023-issue

If there are other guest writers you'd like to hear from in future newsletters, shoot me a quick text or email and let me know.

In February, we held an employee banquet in Lancaster and were able to celebrate many successes of the team and recognize individuals, plus regroup for the evening as a work family. The following week was Pierce's national sales meeting, which included meetings, training, vendor sessions, and a formal awards banquet the last night. I personally enjoy both of these events, as individuals and departments are recognized for their dedication, hard work, and positive attitude. See page 7 for details.

The grand opening for the **GLICK** shop in Harleysville is scheduled for Saturday, April 13th (see insert). Stop by if you're in the area!

If you haven't attended a fire or EMS show yet for 2024, they are plentiful in the next few months. We just finished at the Monroeville Fire & EMS Expo in western PA, went right into two EMS events the following week, will be in attendance at the FDIC in Indianapolis, and are already planning for Fire Expo in Harrisburg. Please stop by to say hello to us if you're there!

The past few months here at **GLICK Fire** have been

full with future planning, drilling down on 2024 initiatives, and becoming more efficient in all departments. The continued growth within the state centers us at times, and we continue working hard to bring ourselves back to the core values of integrity, teamwork and customer service. In all aspects, we cannot lose sight of the reason **GLICK Fire** was started and those who worked tirelessly to assist along the way. Thank you for your continued support!

Until next time, be safe and be kind.

Amy

Welcome to our New Employees!

BRYAN KYPER

Mobile Service Tech • Zelienople

Bryan and his wife live in Pittsburgh with their 3 dogs and 1 cat. Bryan is a volunteer for Canine Service Pals in Moon, PA, as well as fostering and training dogs for them. In their spare time, he and his wife enjoy camping and traveling. Welcome back! bryan.kyper@glickfire.com.

TOM WHITEFORD

Service Tech • Mill Hall

Tom was born and raised in Bellwood, PA, where he has 10 years of service with Excelsior Fire Department. Tom graduated from WyoTech-Blairsville and previously worked in a stone quarry. In his spare time, he enjoys camping with friends and family. tom.whiteford@glickfire.com

JEFF BAIRD

Body Shop Tech • Zelienople

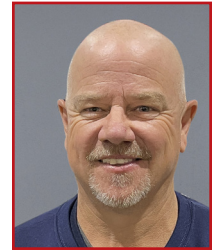

Jeff was born and raised in Michigan. In his free time, Jeff enjoys the outdoors and blacksmithing. He is currently a line officer with Peebles Volunteer Fire Department in Pittsburgh.

TIM WILSON

Mobile Service Tech • Zelienople

Tom was born and raised in Somerset, PA. He is a member of the Somerset Fire Department. In his spare time, he enjoys riding his side-by-side motorcycle. tim.wilson@glickfire.com

DAN MULCAHY

Shipping Clerk • Harleysville

Dan has been a firefighter since the age of 21 when he joined Fairmount Fire Company in Lansdale. He then volunteered with Hilltown Fire Company, and has been with Perseverance Volunteer Fire Company since August 2023. In his free time, he enjoys going to the beach and storm chasing. dan.mulcahy@glickfire.com.

SCHEDULE YOUR MOBILE Pump Testing NOW!

GLICK Mobile Service Techs are ready to do pump testing at your location!

GLICK Fire Equipment operates two *Draft Commanders* for onsite fire apparatus pump testing within PA, helping fire departments comply with NFPA Standards.

Testing should be done annually to ensure your apparatus will perform as you expect it to.

BENEFITS OF USING MOBILE PUMP TESTING

These units are an alternative to test pits. They use clean, clear water that is recycled during pump testing, instead of dirty water from an open water source that could harm the apparatus pump. The *Draft Commander* can pump test apparatus up to 4500 GPM, or pump test two trucks simultaneously.

Prepare – Allows departments to conduct pump tests per NFPA Standards keeping trucks in service; no need for driver overtime or pulling trucks from reserve

Prevent – Pump damage from open water sources that have contaminants in the supply (sand, rock, trash)

Recycle – Water used during testing

SCHEDULE WITH YOUR NEIGHBORS

Because we cover all of Pennsylvania, it can be a difficult task scheduling multiple areas. We ask that you consider working with neighboring departments in your region to coordinate your pump service testing. This allows our

techs to service more departments in a timely fashion, allowing you to get back in service sooner.

With each test, your

department will be given a detailed report compliant to NFPA guidelines.

This service and others are also offered as part of our **Preventative Maintenance** services.

As always, we service all makes and models of emergency vehicles.

Scheduling your test now is suggested since service tends to get busier in the warmer weather.

For more info or to set up an appointment, email service@glickfire.com, or call one of our 5 Pennsylvania locations:
